

SCORPIO /MOTOSECURITY/

Encoding a Transceiver (SR-i900/ SR-i600 / SR-i500/ SR-i300/ OEM-500i)

1. Unplug the Main Harness (refer to picture) from the MCM.
 2. Plug-in HAR-1, the siren will chirp 2 times and the lights will flash 2 times. **Within 6 seconds** turn ignition switch "ON" and "OFF" 3 times.
 3. If the sequence is done correctly and within the time allowed, the siren will chirp 2 times and the lights will flash an additional 2 times to confirm that the system is in "Learn Mode"
 4. Press and hold button # 1 (**Button A for SR-i300/OEM500i**) for 5 to 10 seconds, system will chirp 2 times and the lights will flash 2 times to indicate that the MCM has learned the code. **(The following is for the SR-i900, SR-i600 and SR-i500 models only)** The Transceiver echoes 4 chirps and the LCD displays [LErn donE] to confirm that the Transceiver is encoded.
- [If you have a second remote, repeat this step for the second remote before continuing]**
5. Turn ignition "ON" and "OFF" to exit "Learn Mode".
